Re: Supplemental Response to EPA December 29, 1983 Request
for Information Regarding Handling of Hazardous
Substances at the Kodak Processing Laboratory,
Fairlawn, New Jersey

Dear Sir:

On February 8 and 9, 1984, Eastman Kodak Company provided the attached responses to a December 29, 1983 request for information from EPA, Region II regarding hazardous substance handling and spill/release history for the Fairlawn, New Jersey Kodalux photoprocessing facility. This facility is currently owned by Kodak but the photoprocessing operation has been transferred to and operated by another entity. This request (copy attached) advised the company of a continuing obligation to supplement its response if information was not available or known by the company at the date of response.

Since Eastman Kodak Company retains ownership of the Fairlawn property, the company has voluntarily undertaken more extensive evaluations and actions to address potential environmental concerns. These activities have included the removal of four petroleum underground storage tanks and a drywell formerly used for fire suppression. In addition, basement floor drain subsurfaces were investigated.

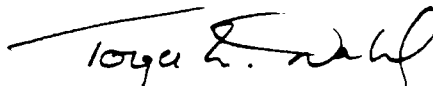

Soil samples collected from below the excavated drywell indicated the presence of 1,1,1-Trichloroethane, (TCA). This information was reported to the New Jersey Department of Environmental Protection Division of Water Resources Enforcement (Case No. 90-06-15-1528). At the request of the Division of Water Resources Enforcement, subsequent soil vapor analyses and groundwater monitoring have been performed. Soil vapor analyses indicated detectable levels of TCA, trichloroethylene, toluene, and xylene. Groundwater samples collected from an on-site monitoring well and irrigation well showed detectable concentrations of volatile organics and formaldehyde.

We are currently working with the New Jersey Department of Environmental Protection to further evaluate the situation.

If further information is needed, please call me at (716) 724-4899 or Joe Gabriel at (716) 726-9181.

Very truly yours,
